Bespoke Wedding Ceremony

This is where we get creative, we spend time getting to know each other.

We meet for a rehearsal, usually the day before, where we look at the finer details prior to your big event. And, of course, you have my full support & assistance with writing vows, which are presented on card.

My battery powered PA ensures the ceremony is heard, and I play your processional music as requested or as supplied.

Generally I only take one wedding a day, of course depending on demand and the time of your ceremony, but I assure you, I am there for you 120%. No limit on the number of guests, and includes unlimited meetings so we can just get it right, I can provide signing table and chairs, and an unplugged sign if required.

Also includes your registered Marriage Certificate sent from Births Deaths and Marriages.

Travel costs may incur depending on location.

As a team, we will make sure its perfect for you both
