Pre-Made TEMPLATES

What is editable?

Our pre-made templates offer extensive flexibility for customization. All font and text elements are fully editable, allowing for adjustments to font type, size, color, and position to suit your preferences. It's important to note that while most graphics can be customized, certain elements are non-negotiable out of respect for the original designer's work. Additionally, the template's size and orientation are fixed and cannot be altered. Should you require resizing, please reach out to us via email, and while there may be a small fee for this service, we are happy to accommodate your needs. Furthermore, each template supports the addition of photos and provides the option for a reverse side, presenting an all-encompassing solution for your personalized needs.

Personalised CONSULTATION

Our personalized consultation process for crafting your event stationery is designed with your unique vision in mind. It all begins with a welcoming and thorough 1-hour initial consultation where we get to know you and dive into your preferences and ideas. From there, you'll get to review up to 5 distinct concept designs, each tailored to reflect your style. We want you to be completely satisfied, so we include up to 5 additional 30-minute sessions for revisions and design reviews, ensuring every detail is just right.

Once we finalize your design, you'll receive it in three versatile formats—PNG, JPEG, and PDF—making it easy for you to use across various platforms and print materials. We're also committed to providing prompt support, with a 3-day turnaround time for any questions you send via email.

If you need help with printing, we can assist you in coordinating with external service providers. These services come at an additional cost and are managed separately from our design work. Prices will be set by these printing partners, and while we'll do our best to ensure a smooth process, we can't take responsibility for any issues with printing quality, delivery and or damages to any items.

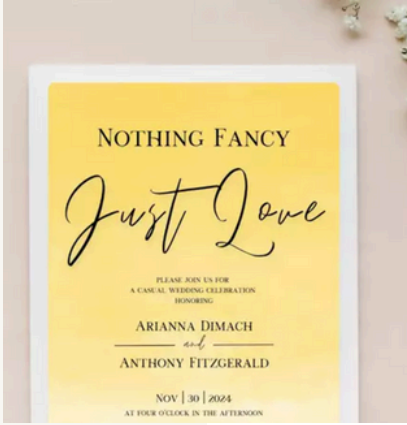

For a clear understanding of each step in our process, be sure to check out the detailed step-by-step process map on the following pages.
