Premium Duo/DJ Entertainment Package

This Premium Entertainment Package option encompasses all of the inclusions of the standard Entertainment Package but also extends the option to have a Live OR DJ set for the dancing portion of the day provided by one of my premium duo partners and myself.

I have three duo partners in particular whom I consider to be my premium Duo partners - Jake, Dom and Jerome.

All three musicians are some of the best "all in one" musicians in the industry in my opinion and both are able to DJ or do a live set for the dancing portion of the evening. In the case of the live music dance floor option I usually join them and both are extremely great at hyping up the crowds and getting people dancing (covid permitting of course!)

The live music dancing set is a lot of fun and all three of them are amazing at what they do. They are reliable, talented, friendly and love what they do which shows in the quality of entertainment that they provide, so no matter who you choose you can't go wrong!

This particular option is a great way to get a "band feel" on a smaller budget!

Jake

Jake and I have worked on hundreds of weddings and gigs together for over six years. He has a premium lighting set up and is the best DJ (other than my other premium duo partners) that I work with, as well as being able to do lead vocals easily and has top quality equipment. When he loops he plays lead and rhythmic guitar and can create many sounds including drums, bass and many others, giving a full band effect! I sometimes play keys with him too. He sings lead very well, we harmonise on each others songs, his set list options are practically endless, and we even often walk around the venue with our portable mics and serenade their guests as well for a bit of fun! He is a ball of fun and energy, loves doing weddings as much as I do, and is highly sought after as a wedding musician in his own right.

Dom

Dom is another incredible musician that I have worked with for many years at a variety of different types of weddings. Dom has an incredible voice and a lot of energy! He sings lead vocals, raps, can beatbox and also harmonises beautifully. He plays piano, trumpet, guitar, cajon, he can loop and he can DJ very well. He can do a wide variety of genres of music including pop, jazz, reggae, RnB, Soul and more. He does many different types of gigs and weddings all the time and, as a result, is very adaptable. He loves music and gets much joy from entertaining people.

Jerome

Jerome has meshed together guitar techniques and styles from across the musical landscape coupled with soulful / rock / rap vocals that he seamlessly fuses elements of classic roots with contemporary and progressive genres. Jerome is incredibly adaptable, positive and talented, making it an absolute joy working with him. He is one of the most talented guitarists I know, spending hours upon hours perfecting his craft. He is adept to multiple genres of music and thrives when entertaining the crowd and creating an electric atmosphere. He can loop play lead guitar, sing lead, harmonise and DJ.
