Hannah + Jack's song

Hannah and Jack are no ordinary couple. Their love is built on their shared sense of humour and the houses that Jack renovates in Bristol (UK) with his own hands.

Hannah wanted to surprise Jack with a song that encapsulates their hilarious beginnings and the blossoming of their love into the deep and committed relationship they have today.

Based on the 'Flight of The Concorde' (comedy band from new Zealand) style, their song is a funny and heart warming tale of their love.

Brief | "Funny and Heart-warming 'Flight of The Concorde' style song."
Style | R&B - Comedy
Package | Gold Package

Pearce + Davey's song

Pearce and Davey's love is as magical as it is powerful. Their story began in fits and starts, but the universe kept delivering them back to each other.

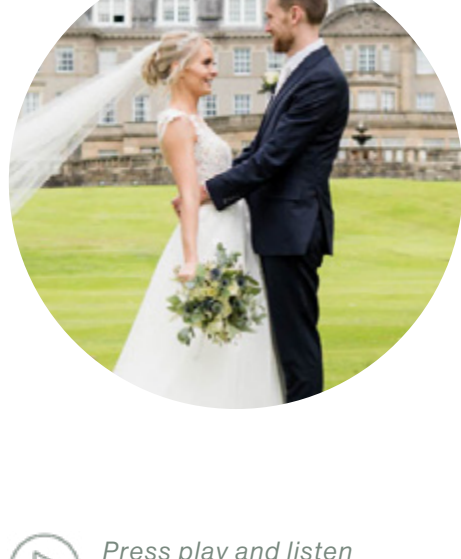

They wanted a song that encapsulates their energy - fun-loving, warm and completely in love. Davey specifically requested that their song was a 'love-fest disco banger'!

Their song speaks to their beginnings and their unwavering commitment to each other, not forgetting their beautiful dog - Jester.

Brief | "Love-fest disco banger to get everyone on the dance-floor."
Style | Disco - Dance
Package | Gold Package

[Press play and listen to Katie + James's song](#)

Katie + James's song

Katie and James met at University in London. Their story is of love at first sight. On an impromptu trip to Amsterdam, James won Katie over with his weird sense of humor and she never looked back...

There was never any question for either of them - they knew they had found the one from the very start.

Katie and James wanted a contemporary pop love song that sounded like it could be on the radio, whilst also telling the heartwarming tale of their love. With a special request for a homage to their shared Scottish ancestry (listen for the bagpipes at the end!).

Brief | "A warm and loving pop song, with a small Scottish influence."
Style | Pop - Acoustic
Package | Silver Package

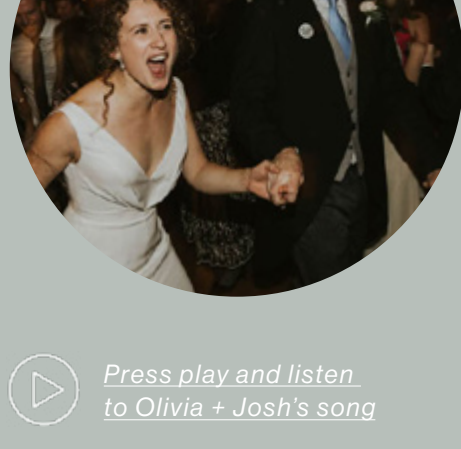

Joshua + Olivia's Song

Joshua and Olivia met each other at University in the UK. Their love blossomed as they grew into adulthood - moving across the world to Australia and are now expecting their first child.

They wanted a song that perfectly encapsulated their love, recognising that from the moment they met, they knew they would be together forever.

They decided that the song would be from Joshua to Olivia - a love letter and reminiscence from that exciting time, to their deep love and commitment as man and wife.

Brief | "Romantic, something you can slow dance to."
Style | Ballad - Pop
Package | Gold package

The Bespoke Process

Dream it

First, we map out your story.
We spend as long as we need discussing your journey as a couple - to ensure that I capture every beautiful aspect of your love.

Then we decide on your chosen genre and to your special day.

Edit it

I write and produce a demo (draft) of the song for you to hear.
You can suggest any changes or amendments to the lyrics or style.

Produce it

I build the full composition of the song - with all the layers of instruments and vocals.
We decide what kind of vocaliste you want on your song.

This is where your song becomes a fully produced and professional radio-quality song.

Keep it

Your song is then professionally mixed and mastered (the scientific finishing touches).
Then we send it to you - ready for your special day and yours to keep forever.

We can upload your track to Spotify (if you would like) so you can easily share with loved ones - or we just send you the song file itself.

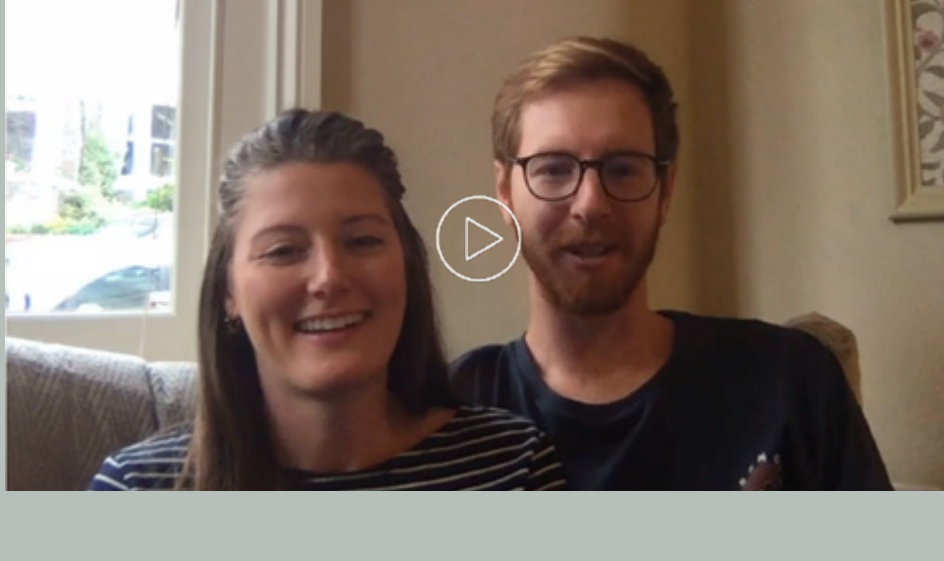

Pricing

*Some specialized requests may be additional to the invoice. (If you want The London Philharmonic Orchestra or Elton John himself...)

What our couples have to say...

Here's a short video from our couples, sharing their experience of creating their own Bespoke Wedding Songs.

"I just feel like you put so much time and effort into understanding our story and making it exactly how we wanted it."

"Having our own song, completely written for us is the most romantic thing!"

"If I could write a song - that's what I would write!"

— HANNAH + JACK

"From the very start it was just so easy working with you, you made us feel so comfortable sharing our story. It was so gorgeous re-living all our memories and then hearing them in such an amazing song!"

"When we played it at the wedding, there were tears - lots of tears!"

— JAMES + KATIE

"Planning a wedding - there's fun bits and there's a lot of not fun bits. But this was such a breath of fresh air in amongst all the planning and we really looked forward to having these moments where we could have the consultations with Laurie."

"When we first played our song, we couldn't believe how incredible it was - we were dancing around the room with it on repeat for ages!"

— PEARCE + DAVEY

I look forward to telling the story of your love.
