

Wedding Packages

Dial Da DJ are a long term established mobile DJ/MC business that strives to meet the expectations to make a successful day and a very enjoyable experience. Recommended by Perth's leading Hotels and Restaurants, we understand that your wedding day is an important event in your life. We encourage you to read through our package outline. Feel free to discuss your wedding before making a commitment to booking to ensure your complete satisfaction.

Basic Rate for a Dial Da DJ package; Refer to Quote

The following summarises your professional entertainment package:

Meet Your DJ (Preliminary interview)

All clients are invited to meet with DJ Tommi EVEN before the deposit has been paid, this interview is a general overview to the function and the role that your DJ will be doing at your reception, and also to go over the procedure and music selections. This interview is recommended as it can be helpful in understanding how the whole reception process works.

Meet Your DJ (Final interview)

All clients are invited to meet with their Disc Jockey, between 3 and 6 weeks before your wedding, to discuss the format and music selection for your Wedding Reception. Your DJ will be able to provide you with some useful tips about the format and help you choose music that will reflect your personalities and entertain all your guests.

Choose Your Music

We've included a small collection of our music, we suggest you have a look through your own music collection to help your DJ when you meet him or her. Add your likes and dislikes and consider your most important songs of the day.

MC and Microphone

Dial Da DJ also provides MC services as part of your package if required. If you have already appointed an MC, we will work closely with them so they may still enjoy the evening. Your DJ will keep them informed of the night's formalities and let them know when it is their time to participate. A radio microphone will be available for you if requested, just let DDD know during your consultation.

Lighting

Included in every system are lighting effects to help get your guests up on the dancefloor. Weddings are usually not the place for excessive effects or smoke machines however our lighting adds to the atmosphere on the dance floor to compliment your event in the best possible way. Accessories such as dry ice, bubbles & fog machines are also available at a small added cost.

Sound

Our sound setup is up to date and comprises of first class professional Digital turntables, mixers and versatile powered speakers which provides great acoustics suitable for function rooms, ballrooms, restaurants and outdoor events. We endeavour to ensure the sound is even in all parts of the room. That way you and your guests will be able to enjoy both the music and the conversation. (The use of additional speakers for over 150 guests is a possibility, in which case an added charge may apply)

Booking Fee

No booking is confirmed until a \$200.00 deposit is received and returned along with your Booking Contract to **24 Daviesia corner, DAYTON WA 6055, email or post** back. Our quotes are **valid for 30 days** from the date as stated on the cover letter. The wedding questionnaire and procedure sheet should be returned shortly after once you and your fiancé are happy with the music selections.
