

WEDDING AND ENGAGEMENT
www.jodiepopephotog.com

JADE & TRINA

30th Jan 2020

Jodie was amazing. Very easy to communicate with before the wedding and during.

She captured our day perfectly. We have some amazing photos to look back on.

HARLEY & LYDIA

8th Jan 2021

Jodie did our wedding, she was very professional and made some beautiful memories for us to keep, very friendly and easy to get along with. Thank you so much

WEDDINGS

JESSICA & EDWARD 6th Feb 2021

Jodie helped us have fun with our wedding photos and has been good at helping us get them even though it's been a while since the wedding and our spam folder acted up.

The photos are of a good quality, and we got over 500 of them to choose from, which is good when trying to find flattering candid shots. All the events and significant decorations were covered well. – Eika'

Hello!

I'm Jodie

My shooting style is authentic moments,
candid, sharp and somewhat romantic..

My editing style is true colours, higher contrasts with
muted darkened greens and sometimes earthy tones.

Adelaide's affordable professional photographer...

...I have a **big goal** to service more weddings in a year, do **weekday elopements**, events, christenings, property shots, engagement parties, birthdays etc throughout the week and one weekends, to **reduce package prices**. Most wedding photographers will only do 20-25 set wedding shoots a year and during peak season only and their packages cost more for them to have an annual income. It's that simple. I'll work 48 weeks of the year to achieve this for more deserving people.

It's my mission to preserve the best day of your life within the images and fleeting moments that I capture for you. It is my hope that the photos I capture will be hung on your walls and placed on your mantel pieces and be there as a reminder of the love and joy you share.

I want you to enjoy revisiting your photos & album and feel the joy & hope you held towards each other for your future, and to have the courage to hold onto your vows through thick & thin. I have a strong desire to produce images that will be kept as heirlooms for your children & their children to cherish well into the future, and for them to connect with you through your photos - & feel your love story.

I entered the Wedding Industry as a photographer in 2020. I have had the absolute pleasure of capturing some beautiful weddings so far. I have been a bride too (2019) so I understand greatly how important your day is to you! Each couple is unique so I am aware that each wedding will be different. It's my job to decipher your unique vibe and capture it.

If you're considering me as your wedding photographer, please know how honoured I am with that decision. I'm a good listener, and I have an extensive collection of posing ideas for those that want the classic bride and groom portraiture. I will be attentive to your needs, style and vision for your wedding day and photos.

I'm going to be looking for those special fleeting moments, the raw emotions, the togetherness that is seen on the day!
