One of the best photographers anyone can possibly get. Immanuel, throughout our wedding journey has been a great person. I have always thought of someone who could put my vision into reality and being wedding, such a big day you don't want to miss anything. That's when Immanuel was there being a great listener, really down to earth and humble person I have ever worked with. I would definitely want to have him and his team on my every occasion to have him captured my precious moments forever. A great being personally and professionally too.. just love to the team ✨

We chose Libera Arts as our wedding videographer and could not be more thrilled with how our video turned out. Ravi and his team were a delight to work with and were able to capture every special moment that happened on our wedding day. The video was edited beautifully and the whole experience was great. We love that we can now relive the day whenever we please.

Thank you again Libera Arts!

Ravi, our favourite photographer in Canberra, came into our lives when we were searching for an affordable photographer for our wedding. Despite our limited budget, he went above and beyond to capture our special day beautifully.

He even offered great suggestions for post-wedding photoshoot locations. His easygoing and accommodating nature made us feel at ease during our hectic day. The quality of his pictures was also exceptional, filling us with pride when sharing them with our loved ones. We were immensely impressed with his outstanding service, so we asked him again to capture our friend's and my husband's graduation and our Christmas photograph. Thank you, Ravi and Libera Arts!
