PROFESSIONAL WEDDING PHOTOGRAPHERS

## Welcome to Be One Photography...

Hi, we're Wayne and Belinda, a loving couple who are approachable, relaxed and both fully accredited professional photographers and proud members of the AIPP (Australian Institute of Professional Photography). Between us we have won many accolades and awards within the photographic industry with literally decades of experience, but, enough of the formal stuff....

Many consider themselves as photographers these days, but it goes way further than a fantastic camera, it is down to vision, creativity, technical knowledge, experience and simply seeing a situation develop beforehand so that it can be perfectly captured to be treasured for generations.... We use these abilities with every wedding day that we record and are proud to say that the results speak for themselves.

We will capture some of the most intimate and personal moments of your lives which is why we believe it should not be left to chance. By investing in us to capture and record your wedding day you have the benefit of two perspectives, a male and female take and multiple angles on fleeting and precious moments being captured by a harmonious team of two. For the main times like the ceremony we work together but for the in between times, we have the ability to work separately. This means that for your getting ready photos, you can have one of us photographing the bride, with the other photographing the groom, all at the same time. Literally, your wedding photographer can be in two places at once, and

as mentioned earlier, you are getting the services of two accredited professional photographers, not just one photographer with an assistant.

We use the very highest attention to detail in every aspect of your magical day from the early photography planning stages through to design and production of your beautiful wedding album.

*"This is our craft, our love and our profession, it is what we do..."*

## The engagement shoot...

Each of our packages includes an engagement shoot. It is a fun and personalised portrait session that we use to not only celebrate your engagement but to also prepare for your wedding day.

Normally the engagement shoot takes 1-2 hours at a location and time of your choice.

It is perfectly normal to feel a little nervous or awkward about being photographed. We understand that being in front of the camera can feel intimidating, we don't want that and find most people only feel truly comfortable in front of the camera after a short while. The informal and fun engagement shoot reduces this largely, plus it gives us a great insight

into getting to know you and you getting to know us

This all means that once your wedding day is here, you will be far more relaxed and comfortable in front of the camera so that we can concentrate of capturing all of those magical moments for the both of you.

You will receive an online private collection of photographs from the engagement shoot that not only are beautiful memento but also you may choose to use them as 'Save the day' cards and the like.

## The wedding day...

On your wedding day, we both capture the magic from the very start, girls getting ready, guys getting ready, special details such as gifts, rings and flowers plus anything significant or sentimental, fun shots with both groups prior to the ceremony and then onto the ceremony itself. We photograph the families and group shots prior to whisking you both away with the bridal party to a pre-arranged nearby location for some portrait photographs, we will give a little direction in how to position yourselves but in the main these are natural and relaxed. This time is reduced, as again, there are two of us.

We will then continue to capture your beautiful day through the speeches, cutting of the cake and the first dance, plus of course that crazy guest that just cannot get off of the dance floor! We capture everything that matters and also those priceless moments that occur in-between for you to remember.

Throughout the whole day both of us capture many candid, natural moments, many of which are un-noticed and our aim is to remain as invisible as possible. As we have already said, you benefit from two different perspectives and without question more of your day captured for you.

We never lose sight of the fact that this is your wedding day and not our personal photoshoot. It is a day that you get to spend with the closest and dearest people in your lives, our aim throughout is to capture the natural way that the day unfolds in the very best way possible.

## The End Result...

You will have hundreds of beautiful, honest and professional photographs that will be cherished and treasured for generations.

We will not just give you a cheap DVD or USB stick and be done with it, we believe that you and your wedding day deserve far better. Are USB sticks and social media sites going to be readable or accessible in decades to come?

We provide a permanent online secure gallery where all of your beautiful high resolution images are stored and archived. This not only means you can view them from any device anywhere in the world over the internet but you can also download them whenever you wish. There is also an option to order prints online if you wish. You can also share this album with friends and family, it is a secure album that only you and the people you choose have access to. Another advantage with an online archive is it is safe from theft or fire forever.

Your wedding day will be remembered forever by the memories and photographs, so why not choose to have one of our sensational state of the art lay-flat wedding albums to showcase your day and tell your story without interruption, it is physically something to hold, touch and feel that you can look at whenever. Quite simply, there is no better way to relive the day. The albums that we offer are of the very highest quality available and are designed, printed and lovingly handcrafted right here in Australia. We'll show you samples from previous weddings of each album so that you can get an idea of the beautiful craftsmanship that we are dealing with and to help with your decision.

We carefully design the images and layouts for your album which you then review with us, any changes you require are made with us advising you if required, it is at this time that you choose the exact specification of your album with us, don't worry, we help you all the way with the choices. Only when you are 100% satisfied the album is presented to our designer and publisher for handcrafting.

Having a wedding album is something that we highly recommend, it is without a doubt a family heirloom that you create and that would be treasured forever.

## Frequently Asked Questions...

### **Are you a legitimate professional photography company?**

Yes, we are an Australian registered entity (ABN 97 383 882 060) registered with ASIC and trading as the registered trade name "Be One Photography". As Accredited Professional Photographers, we have had our work judged and assessed by an independent panel of professional judges as being of a professional standard with the Australian Institute of Professional Photographers (AIPP) and as such we adhere to the codes and practices of running an ethical professional photography company with all relevant insurances (liability & 3<sup>rd</sup> party) in place. We are the real deal.

### **How do you describe your photography?**

We capture the day as it happens before us, we incorporate portrait, landscape, documentary and macro photography techniques to give you a sensational set of photographs detailing everything possible.

### **How do you photograph and what do you wear?**

We try to be as discreet as possible, we constantly move around seamlessly without distraction capturing your day. We dress smart enough to mingle in with your guests but comfortable enough to be able to shoot all day. We certainly do not wear logo'd clothing etc. or dress inappropriately.

### **How long do you shoot for?**

Most of our packages include 10 hours which is ample to cover every aspect of your day. We do offer a 'Coverage Only' package which includes 5 hours but this may be extended if you wish to suit your particular wedding. The 5 hrs starts when you decide prior to the wedding.

### **How many photographs do we get and when do we get them?**

The average wedding package of 10 hours will include several hundred images as a minimum, we never limit what we shoot. Your images are delivered via the online gallery approximately 4 weeks after the wedding. If you have invested in one of the beautiful album packages then that will be delivered a further 3-4 weeks after the images, this is to allow for review and design work.

### **Can we haggle over price?**

Our prices are extremely competitive for two professional photographers providing the service that we do, and as respect to all couples they are non-negotiable. The packages are tailored to provide the very best value and quality available in our profession. However, all packages are customisable.

## More Frequently Asked Questions.....

### **Where will you travel to shoot a wedding?**

We are prepared to travel to any destination wedding required. For greater than 2hrs drive from our office (Kincumber, NSW) there is simply a \$300 per night fee to cover travel and accommodation. Interstate and overseas would need airfares on top of accommodation costs factored in, these are quoted on an individual basis.

### **Do you have breaks during the day?**

We only stop photographing at convenient and natural breaks in the day, shooting for long periods is extremely tiring, both mentally and physically, we do ask that we are provided with a light meal at the same time that you are eating at the reception. This means we are ready and refreshed once the speeches start.

### **Do we really need a wedding album?**

Your wedding day is one of the most important days of your life that only happens once and by investing in us for the photography you will receive a beautiful set of images to remember and relive the day by. Nothing can compare to sitting with a beautiful handcrafted wedding album that compliments your photographs perfectly for decades and generations to come, far too much these days is only online, this is a real physical record of what you guys did and the love you share in your lives. The albums are of the absolute pinnacle of professional quality in every way that will last a lifetime and longer.

### **What do we do next?**

Just get in touch with us so that we can get together and have a great informal chat about your story, it is important that there is a connection between you and us. During this meeting, we will get to know one another a little and discuss how we can help you with the professional service we offer, by casually going over the finer details. To guarantee a date with us for your wedding photography all that we ask is a deposit of \$250, we then can plan your engagement shoot.
