WHO I AM

I started developing this passion for photography and telling stories a long long time ago. I have had the pleasure to work with many great artists and enjoy so much my time at work. 15 years of experience capturing invaluable moments in weddings, live concerts and in studio. Focused on taking candid shots and capture the feeling of the moment, I always try to make my clients feel comfortable and have that reflected on my work. Emotions, feelings, a simple gesture, an instant of complicity, that exact moment that changes lives... My goal is to capture that in my photos and provide the best professional result.

ADRENALINE ON LIVE CONCERTS

My first love in photography. Live concerts have a unique vibe, going through different stages over a setlist, where the band/artist in complicity with the public enjoy a journey that requires 100% of concentration.

THE BEAUTY OF THE WEDDINGS

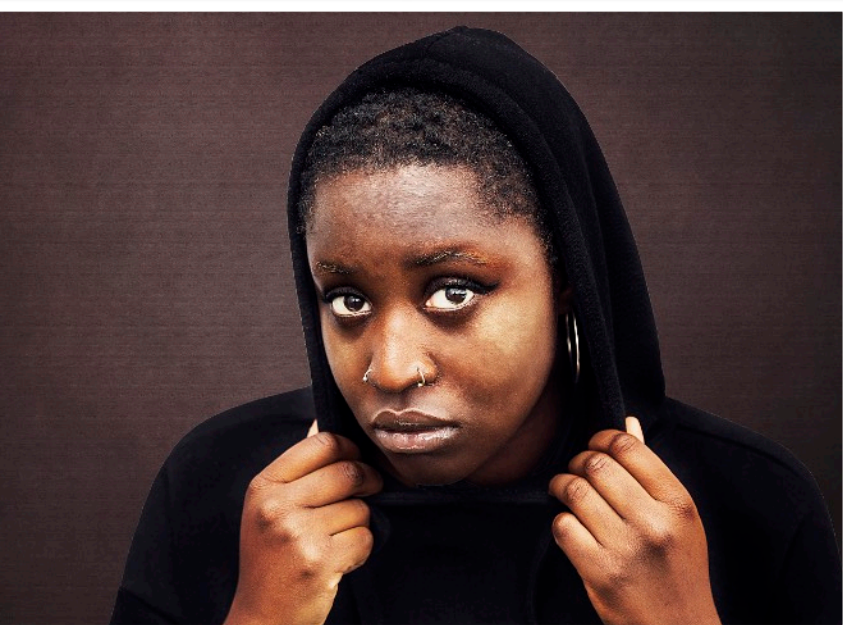

One of the most important moments for a couple, where a day reunites a mix of emotions, excitement, stress, happiness, and everything has to be perfect. That is where I show up to provide a lifetime memory with my camera.

A woman is seated in a studio, wearing a black lace dress with a scalloped neckline and black thigh-high stockings. Her hands are clasped in her lap, and she is wearing several rings. The background is dark and textured.

CHALLENGING EXPLORATION IN STUDIO

Studio environment is a completely different place to work in. Technical knowledge, complicity with models and experience play a new role where results are approached in a different way.

We recently hired Alfredo for our wedding and we could not be happier with the result and now have a gallery of photos we simply can’t choose our favourite from (this is no exaggeration!) His photos tell a story and are truly pieces of art. Alfredo has an extremely warm, friendly and direct approach and knows exactly what she is doing. A true artist and professional.”
