KATE LAFFERTY PHOTOGRAPHY

Gippsland, Australia

Welcome to Kate Lafferty Photography!

I specialise in turning fleeting moments into timeless memories. Weddings are more than just ceremonies; they're the culmination of dreams, emotions, and stories that deserve to be celebrated and preserved in the most beautiful way possible.

My passion for photography comes from an appreciation for the art of storytelling. Each couple has a unique narrative, and it's my privilege to translate those stories into stunning visual tales. I love to capture the raw emotions, intricate details, and candid moments that make your special day truly unforgettable.

A trusting relationship between you and your photographer results in the most authentic and intimate photographs. I take the time to understand your vision, preferences, and personalities, ensuring that every shot reflects who you are as a couple.

My approach blends photojournalism

and artistic creativity, resulting in a comprehensive collection of photographs that tell the complete story of your wedding day. From the stolen glances to the grand celebrations, every moment matters, and I'm there to capture it all.

I understand that planning a wedding can be a whirlwind of emotions and decisions, and choosing the right photographer is one of the most crucial decisions you'll make.

With Kate Lafferty Photography, you're not just hiring a photographer; you're partnering with someone who genuinely cares about making your wedding photography experience smooth, enjoyable, and magical.

Thank you for considering me to be a part of your journey. I look forward to preserving your precious moments and creating memories that will last a lifetime.

GETTING READY
12-1PM

You can cherish each moment of your special day, the journey begins with capturing photos that capture the excitement and perhaps some nervousness displayed by the groom as the big day unfolds.

GETTING READY
1:15-2:30PM

Relive the time you are apart, the laughs, the tears and all the other beautiful moments. Getting ready photos should be stunning photos that document a very important moment.

CEREMONY

WITH A BRIDE:

Helpful Hint:
Allocating specific spaces for bags and personal belongings can help with organisation during the morning, leading to more spacious and clutter-free areas.

This can save time and ensure clean, clear photos.

DANNY & MEL

Posed photos capture the classic beauty, while unposed moments stitch in the raw emotions and genuine connections. By embracing both styles, you'll create a wedding album that tells the complete story – a story of love, laughter, and photos that you will look back on in years to come. I'll help you get both.

LIGHT

Lighting is a key factor in creating a great image. Lighting determines not only brightness and darkness, but also tone, mood, and atmosphere. I'll make sure we use the light we have to create the best scene possible.

CONFETTI!

It's no secret I love confetti; if you're here because you're wondering "should we throw confetti?" the answer is yes, no argument. It's creates one of my favorite shots.

CHAMPAGNE POP

Contrary to common belief, a spectacular cork-popping is not necessary for an impressive spray. It is best to remove the cork first and set it aside. Next, hand the bottle to the sprayer who should cover the open end with their thumb and shake it up and down. This action will release the champagne, causing it to fizz out of the bottle and spray in all directions due to the pressure of the bubbles.
