Excellent photography team! Our whole family and bridal party loved them. Very easygoing to work with, listened to our input for how/where we wanted our photos. Beautiful presentation of the photos in a collection box afterwards.

GILLIAN & NATHAN ST GEORGES CATHEDRAL

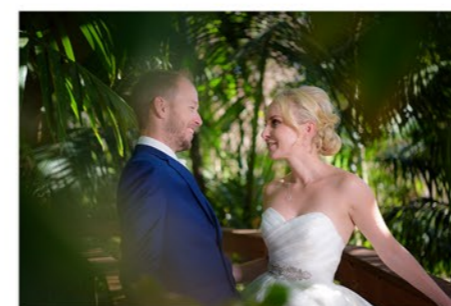

They went above and beyond and no detail was missed which really took a load of stress from us. They were so easy going and fun to be around it just felt like we had friends coming along with us on the wedding day - friends who are also amazingly talented at what they do!

GIOVANNA & GEORGE PAN PACIFIC

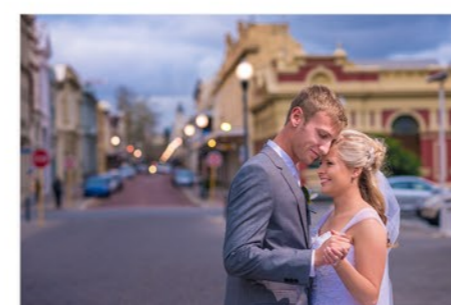

They were absolutely fantastic!!! They went above and beyond. The communication was unbelievable through the entire process. They would email to check in and see if we needed any help at all. Also the week leading up to the wedding they emailed us a plan in terms of locations we had chosen. They even sent out a nice package with all the essentials they thought we may need leading up to the wedding which we thought was amazing! They allowed us to really enjoy the day!

ROBYN & MAT BATHERS BEACH

They were amazing! From the day that we met with Darren and Nakia we knew that they were perfect. We requested a more geometric engagement shoot which was amazing and we are obsessed with! They were always available when we had questions or were unsure of anything. They attended our rehearsal at the Perth Zoo and helped up to know where to stand and walk and how long to take. Without them, we would have had no idea! The day ran smoothly mainly because they looked after whatever needed to be done. The photos that we have seen are incredible! Apart from the photography and the wedding planning they helped with, they are great people and very easy to get along with. They listened to what we wanted and were happy to also give their opinion. Without them, it would not have been as enjoyable.

KIMBERLEY & CHRIS THE AVIARY

They were fantastic! They thought of everything! They even gave me a little bridal survival kit, which was nice. We had so many comments from guests saying they were awesome, didn't even know they were there. Just amazing! Very happy with the photos, they were stunning.

Scenic Art

Photographs designed to your taste. Stylish, elegant & fun. Scenic Wedding Photography is the time you allow from the end of your ceremony/ family photos to the time you are due to arrive at your reception. This is our time to have a bit of fun, relax and create amazing photographs. After our initial consultation, we have learnt enough about your characters to have a good understanding on what will visually please your eye. From this, we hunt out beautiful & unique locations to conduct your Scenic Photography; producing images just for you.

Scenic Art starts from \$721

BROOME

Reception

Raw, hilarious, yet meaningful imagery. People sometimes have the thought to leave reception coverage out of their photography package; trusting these memories to be captured by Aunts wielding disposable camera's... or even Robot Cameras with no eye for emotion. The raw energy that grows during the course of a wedding reception evening is absolutely overwhelming, with every emotion coming to life and radiating off all your guests. If anything, this is the second most important stage of your wedding day; only second to the ceremony itself. No matter which culture you grow from, or which religion you trust your faith to, wedding receptions are a great representation of your life, beliefs and values.

Reception coverage starts from \$829

OPTIONS

Destination

Travelling has always been a passion of ours. We have visited many countries for both work & pleasure. Destination Wedding Photography goes hand in hand with landscape photography and is far more cost effective & simple then one might initially consider. If you are travelling abroad for your wedding day, this option is definitely something to discuss.

THAILAND

Artistic

After meeting with you to working out the best style and creative space to portray your relationship, we head out for a few hours and have some fun with the camera.

It is a great way for everyone to get to know how we all react in front and behind the camera before your big day!

Starting from \$680

OUR STORY

Your Photographers

Hi, my name is Nakia, I'm a local Western Australian girl. I have lived in many countries around the world and throughout Australia. Five years ago I moved back to my home town, WA, and dedicated my knowledge and creative thinking to people who wish to tell their story through photography.

My style of photography, I would say is abstract, I see small details within everyday life that are often missed or clouded by the bigger picture; details that are just as significant as the common world we all see.

Wedding photography is challenging but very rewarding; I guess that's why I love it.

RAINBOW VALLEY - BY NAKIA

Hello, my name is Darren, I was born in London yet raised in Australia. I enjoy travelling, hiking and climbing and learning more about people,culture and countries.

I learnt photography while serving in the Australian Defence Force; for years I photographed interesting situations and places around the world, developing my skills through photojournalism.

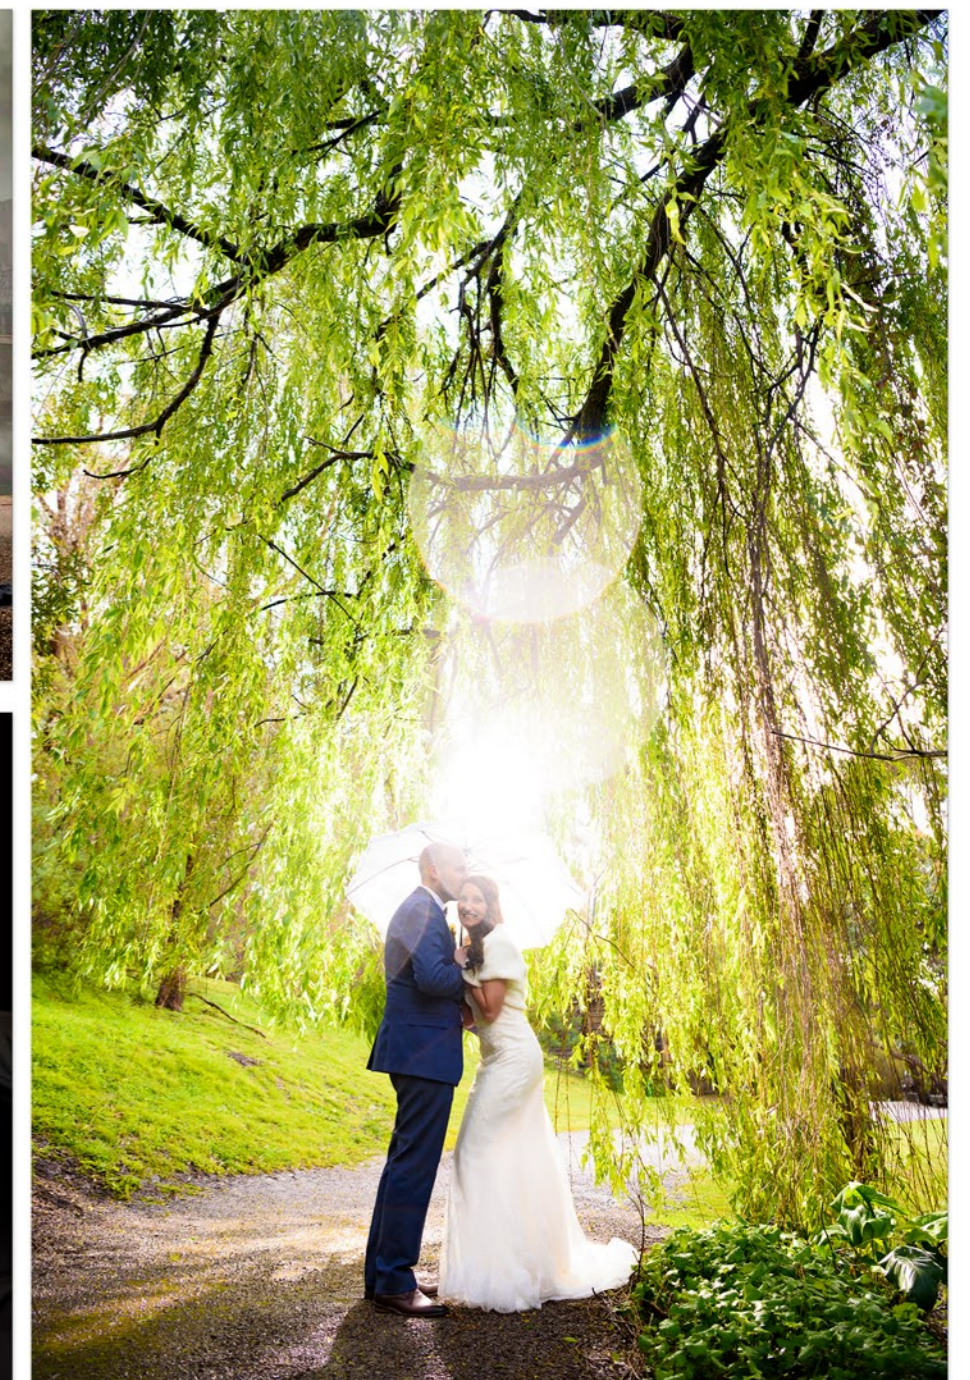

My career has taken me to many beautiful locations and introduced me to a diverse demographic of people, instilling a deep love for landscape, lifestyle photography & dynamic lighting.

It humbles me to know that the photos we create will be held for generations, preserving history and memories of ones life.
