# The **TWENTY ONE** **STUDIO** differences

Our images have that certain "something" that really makes them *stand out* from the crowd. It's not only about using the best cameras and techniques, which we absolutely do, but it's our relentless dedication to the art that really shines through. We obsess over the details, treating each photo as a unique story, a moment to be preserved on archival-quality paper so it can travel through time. We're not just taking pictures; we're crafting legacies, capturing love stories that will be passed down through generations.

What sets us apart? We're not just there on the big day; we weave the very essence of these moments. From the initial sketches to the last flourish, we're at the heart of it all, pouring our expertise and vision into a masterpiece of memories. We're more than just vendors; we're family, committed to turning every snapshot into a legacy. With us, it's not just about capturing moments; it's about crafting your forever story.

# WEDDING ALBUM

/

Your Wedding Album encases your most precious experiences, memories, and emotions from your wedding day. An Heirloom to last for generations and true piece of fine-art that every bride of ours can have in their hand. Every Album is custom designed around each couple by our head designer at Twenty One Studio. We then work with you one on one to finalise the finished display of the Album.

Our Boutique album combines custom craftsmanship, handmade quality details and fashion-forward looks. When you first get your hands on your art work, you may find yourself brushing your cheek against the glorious cover; this is perfectly normal. We do it all the time.

Our binding lays beautifully flat, so each spread can be presented in all of its glory. No cut through any photograph.
