"Steph is an amazing wedding photographer/artist and a *wonderfully passionate*, talented and *generous* person. She truly captured the journey of our wedding day from start to finish and her story of our day made it all the more **special**. Steph became *more than just our photographer*, going above and beyond her call of duty, she was our guest and caring friend."
Kayelene, Brisbane Australia.

" Steph blended into the crowd to quietly capture all the beautiful moments, raw emotions then the wild and **magic energy** of the dance floor – she captures the lot! Her photographs are *super romantic* – from crisp, **warm and vibrant** colours to her moody and emotive black and white edits and everything she does in between – *it's ALL magic.* "
Jacinda, Wedding Celebrant Sydney Australia, @jacthehitcher

"Her work is absolutely **beautiful, stylish, modern + considered**. We really hoped for a laid back and non fussy style wedding but of course wanted to be sure we had all the moments captured. We were pleasantly surprised with so many intimate shots we had no recollection of Steph taking, thankfully as both of us feel very uncomfortable in front of the camera especially on such a big day. Stephanie's delivery of the final images were *beautifully retouched* and easily accessible adding to the overall *professional service* she provided to our special day. *She absolutely nailed it* getting images of everyone there, special moments and captured **all the love** throughout the ceremony and all the fun amongst the party too. She was a huge addition to making our day **perfect**."
Leone, Biarritz France.
