

For you, Bride & Groom

Your Host

Hi there, I'm Stef.

Weddings are not just my passion—they're my heart, & I am truly captivated by the magic they bring. My love for Wedding Styling is woven into everything I do, from the artistry of each arrangement to the elegance of every design. There's something incredibly special about the way flowers bloom on a table, how candles flicker in soft light, & how each detail comes together to create a moment that's uniquely yours.

It's this passion for planning & styling that inspires me to craft an atmosphere as unique & beautiful as your journey together. My career began as a Wedding Assistant in Melbourne, working with amazing vendors & learning the finer details of the industry.

In 2016, I founded Diamanté Weddings & Events to share that magic through thoughtful planning, helping couples bring their dream day to life. I'm grateful to now live this passion every day, planning & designing unforgettable moments, & I can't wait to make your Wedding day everything you've imagined.

With love,

Stef x

I can't recommend Stef enough for any future brides. Stef is incredibly friendly, professional, has an eye for detail, is prompt with getting back to you and took the stress away from the wedding planning and coordination for the day.

Stef is also very flexible and works well with liaising with other vendors involved in the day. She is truly amazing & I would highly recommend her to any future brides.
