

THE  
Message  
audio guest book CO.

# The modern day guestbook.

Ditch the pen and paper in favour of heartfelt and humorous voice messages at your wedding or special event. Your loved ones will be thrilled hearing from you in this unique and fun way and will be eager to leave you a message in return.

Choose from our range of stylish phones, all designed to complement the theme of your event.

# How It Works

We know there is a lot to think about when planning an event, so we have kept our process as simple as possible for you.

## Look & Book

Browse through our range of phones and select the one that best complements your event. Once you have chosen the phone for your event contact us to make a booking.

## Wait For The Call

We'll be in touch to go over the finer details and answer any questions you have regarding our phones, their availability and anything else you may be curious about.

## Check The Post

A minimum of two days ahead of your event, the phone will be delivered. We will also include a free return shipping label so you can return it hassle free after your event.

## Leave A Message

Prior to your big day, record your greeting, your guests will hear this before they leave a message. We'll also include easy to follow instructions so setting it up will be a breeze.

## Words Of Love

While you are celebrating, your guests will pick up the phone, hear your greeting then leave a message after the beep. You then need to return the phone within two days of your event, using our return shipping details.

## Listen To The Love

Prepare to be amused! Within two weeks of your event we will send you a package with all of your messages. Then all you need to do is sit back and listen to the messages of love from your friends and family.
