

Broome Weddings

With BoabUAS Videography

Are you based in Broome?

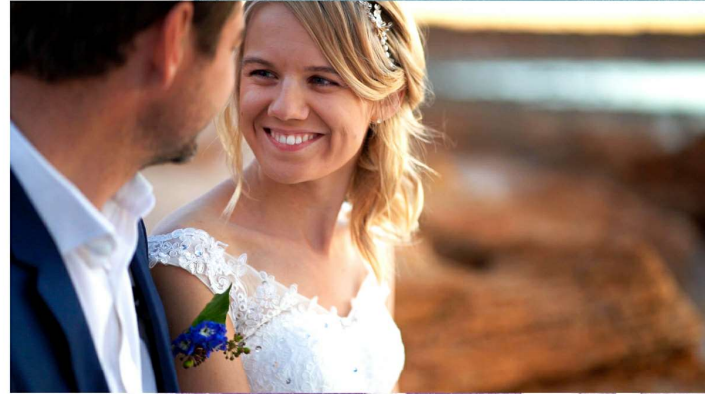

I've lived here the last 7 years with my gorgeous family.

How much do you charge?

4 hour coverage \$1370

8 hour coverage \$2093

12 hour coverage, including second videographer/camera \$3211

What does this charge include:

Travel to within 30mins of Broome and up to the 4, 8 or 12 hours as requested of a videographer with at least one video camera.

All packages include, video on USB (DVD on request) with highlight reel and online hosting of highlights (password protected). Interviews with bride/groom/family if this is possible given the time requested for the wedding (usually appropriate with 12 hour coverage).

Please note: We're very flexible with how we shoot your wedding and what we show but we politely request that if you need us to cover more of your wedding than organised (or intended) that extra charges will result.

We would usually expect 4 hours to include some wedding preparations, arrival at the ceremony, the ceremony itself and the bride and groom leaving the wedding venue. 8 hours would normally include the above as well as arrival at the reception venue and some of the reception. 12 hours will include an interview on another day with the bride and groom or family member (usually a few days before the wedding), prep for the ceremony, ceremony and the whole wedding through to after speeches or cake cutting (whichever is the last important event of the evening).

What other options do you provide:

Drone video/photos, and second videographer. I also work with a local sand artist who can rake beautiful images on the beach for your photos or ceremony.

Can you shoot photos and video at the same time:

It is possible for us to shoot photos or video for different parts of the wedding, such as video for the ceremony and then photos for the reception though we would recommend for the best results that you engage a separate photographer for the wedding. We can recommend highly skilled local photographers if requested.

Does the price include the bride and groom getting ready for the wedding?

We're happy to video the bride and groom getting prepared for the wedding but the time needs to be included in the total time coverage for the wedding.

Please don't hesitate to contact me if you have any questions on 0402540181.

-Matthew
